***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- A. Claims 124-216, 218-221, 227-229, 231 and 234 drawn to a method and system for enabling a purchase of a product, classified in class 705, subclass 26.
- B. Claims 218 and 235, drawn to a method for authenticating of a recipient, classified in class 713, subclass 170.
- C. Claim 222, drawn to a method for selecting of a link on a web page, classified in class 707, subclass 100.
- D. Claim 226, drawn to a method for generating a historical list of venues physically visited by a recipient, classified in class 705, subclass 1.
- E. Claim 232, drawn to a method for generating an account balance for a purchaser, classified in class 705, subclass 30.

Inventions A - E are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention B has utility separate from that of inventions A and C-E such as authenticating of a recipient; invention C has utility separate from that of inventions A, B, D and E such as linking web pages; invention D has utility separate from that of inventions A-C and E such as generating a log of

events; and invention E has utility separate from that of inventions A-D such as generating an account balance. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, or patentability requirements, restriction for examination purposes as indicated is proper.

Applicant is advised that a reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
